Glass Architectural Hardware

Delivering Symmetrical Elegance For Aesthetic Resonance HALAX has been an innovative and professional company engaged in research, development, manufacture and marketing of fittings for architectural hardware. HALAX supplies fittings of high quality and provides consulting services to the architectural industry. Through many years development, HALAX achieves a good reputation in Construction Industry and Hard wore Industry. Unique value con only be created by professionalism. speculation has no future. This motto is practiced by HALAX personnel at all levels, ranging from senior executives to the new entry employees. In the continuous quest for constant technology development, higher quality and better services, today HALAX has become the prominent and largest supplier of fittings for architectural hardware industry.

Striving to become the leader to serve the architectural hardware industry in the world, HALAX not only adopts advanced management and manufacturing method, but also invests heavily in design and innovation. Rich product and prominent capability of innovation is the driving force for its progress. The company has achieved acclaim in innovative design, elegant appearance, high quality products and unsurpassed services, greatly meets the individual needs of different customers, and is widely praised by customers. HALAX takes pride in supplying fillings to many famous landmarks in countless cities of all over the world.

HALAX is always your best and most reliable partner in supplying fillings for architectural hardware.

A large, faded version of the HALAX logo, consisting of the word 'HALAX' in a light grey, sans-serif font with a registered trademark symbol (®) at the end.

 Glass to Glass & Wall to Glass

HFDL-11-BL
 Finger Print & Digital Door Locks

- APP Unlock
- Fingerprint Unlock
- PIN Code Unlock
- Key Unlock

HFDL-22-BL
 Finger Print & Digital Door Locks

Controller Dimensions	85x124x600mm
Weight	12kg
Maximum leaf weight	Table
Open range	70o ~ 115o
Closing speed	10 ~ 43cm / s
Door hold time	0.5 ~ 10 seconds
Main Power	AC220V ~ 250V, 50/60Hz
Maximum current	1A
Maximum motor power	55W
Wait Power	14W
Fuse	Minimum 3.5A Slow
Operating Temperature	-30°C ~ +50°C

HSDC-1
Automatic openable door operator

Door Sensor

HASD-1

Automatic Sensor Door

Specification :

- Intelligent control system.
- Drive equipment with low noise.
- Advance brush less motor and worm wheel reducer are integrated.
- Special self-locking function without any addition components.
- With different triggered opening modes.
- Double door interlock function.
- Optional power supply backup to ensure the normal operation.
- When door is closed, it shall be locked and kept closed.
- Apply to doors for garage, usage of anti-ratiation for hospitals, warehouses, science and technology factories, barriers-free space, commercial building, shopping mall, etc.
- Track size : 4200mm/6400mm.
